SUNDAY BASEBALL SEVERS CHURCH TIE

Pastor Quits Rather Than Surrender Conviction for Clean Recreation on Sabbath.

PORT AUSTIN, Mich., Aug. 14.—The ties which bound the Community church of Port Austin with the Detroit conference of the Methodist Episcopal church were cut at a meeting of the church board when the board heard of the action of the district superintendent, Dr. McClenahan, of Huron, in bringing into Port Austin without the knowledge of the board, two Sanilac county preachers as "witnesses" in an investigation. The pastor, Rev. Shoemaker, told the board that he refused to answer questions of the district superintendent and told him to submit charges they carried. He said he was advised by the district superintendent to quietly and secretly leave Port Austin and the Detroit conference, but was told he could remain if he would publicly renounce Sunday baseball and dancing which he has championed, when properly conducted.

Rev. Shoemaker says he has the conviction that a man can have little influence on life if he is not a part of it, and if the young people of the church are engaged in dancing it is his business to be among them and use his influence against anything that is not good. His stand on Sunday baseball is that an occupied mind is better than one which is not; "an idle mind breeds mischief." He sees no harm in clean, manly sport in the fresh air and sunshine on Sunday.

The board called a congregational meeting to follow the evening service on the last Sunday in August to take action on filling the pulpit the coming year. The majority of the people are said to be in favor of the retention of Rev. Shoemaker.

CROPS BENEFITED BY RAINFALL THIS WEEK

INDIANAPOLIS, Ind., Aug. 14.—Growing crops received inestimable benefits as the result of cooler weather and rain, according to the weekly report of George C. Bryant, agricultural statistician to the U. S. department of agriculture, announced Sunday.

The report follows: "The cooler weather and showers during the past week in practically all sections of the state have been beneficial to all growing crops. The threatening of small grains and hay harvesting is completed. Fall plowing is in progress.

"Late planted corn shows considerable improvement over last week. Some early planted corn is too badly dried to recover. Corn cutting is going on some localities. Rains and cooler weather have materially benefited late potatoes and in some localities a fair crop may be harvested. Sweet potatoes in the commercial district in southern Indiana show improvement and will be a fair crop. In other sections the condition is poor. Other truck crop condition is poor, but shows considerable improvement over last week. Pastures and alfalfa show a decided improvement over last week, but the former is very short and not of much feed value."

Church Closed by Court Order Following Dispute

ADRIAN, Mich., Aug. 14.—The First Baptist church of Hudson will hold no services Sunday if the provisions of two injunctions issued from the Lenawee circuit court are given compliance.

Two weeks ago, after Rev. C. H. Myers, pastor of the church, had declined to comply with the request of the board of trustees that he resign, the trustees obtained a court order restraining him from preaching.

Saturday the deposed pastor obtained another order, restraining the trustees from employing any other pastor to fill his pulpit, either permanently or temporarily. He had filed an answer and cross bill to the trustees suit commenced in circuit court and claims back pay from June 1, when the controversy started.

The discovery Saturday of ropes, tied in hangman's nooses, on the porches of two Hudson men, both members of the church, gave rise to some speculation as to whether they were placed there by jokers or by persons with more sinister intent. The nooses were found, either by accident or by design, by a boy who said "this is what becomes of those that disobey the laws of mankind," and were signed "the black devil."

RAILROAD EMPLOYEES HOLD ANNUAL PICNIC

TERRE HAUTE, Ind., Aug. 14.—Four special trains, traveling from Terre Haute, Fairborn, Kellier and Westport, carried 3,500 employees of the Chicago, Milwaukee and St. Paul railroad to and from the second annual picnic at Oden, Ind., Sunday. The trains were furnished through courtesy of the railroad, and the picnic was operated by members of the Southeastern Employees association, in charge of the affair.

Superintendent M. J. Griffin and Asst. Supt. P. M. Fagan attended as representatives of the management and General Chairman H. C. Beiler of the Order of Railway Conductors and S. R. Showers of the Brotherhood of Locomotive Firemen and Engineers represented their organizations.

TROOPER SHOT IN RAID
MASON, Mich., Aug. 14.—Lawrence Lane, who served in "C" battery, 119th field artillery and saw much service in France, recently joined the state police and was wounded in a raid made near Negaunee, when three troopers searched a shop for hidden liquor. They found two quarts of "moonshine," secured their man and started away when the riot occurred, and Trooper Lane was shot through the ankle. The other two troopers were also wounded, and more seriously than Lane.

Community Market at Pontiac Held as Model

PONTIAC, Mich., Aug. 14.—Pontiac's community market, which has achieved remarkable success in the two years since its organization, is being copied in many cities of the country.

The Board of Commerce, which fathered the enterprise, is in almost daily receipt of inquiries concerning the plan. Lincoln, Neb., and Parkersburg, W. Va., are the two latest to make inquiries.

The market plan is based on the simple premise that a farmer should be able to sell for cash, at a reasonable price, any produce he brings to town, of whatever sort, without peddling it about. The market, directed by Walter Braden, originator of the idea, buys whatever is offered and seeks an outlet, either locally or outside. Thus far it has had no difficulty in disposing of the goods purchased.

ATTY. GEN. LESH RULES ON TEACHERS' MEASURE

INDIANAPOLIS, Ind., Aug. 14.—Rulings on important questions arising from installation of the new Teachers' Pension Law have been made by Atty. Gen. Lesh in an opinion to Estes Duncan, secretary of the board. Among the important rulings on the law are the following: Teachers, members of pension units under the old law, are exempt from the payment of arrearages if they were paid up to the time of the passage of the new law. The provisions of the law apply in a compulsory manner to all beginning teachers outside Terre Haute and Indianapolis and all cities in which units were established under the old law.

The law does not require all teachers who have been engaged in teaching to become members of the pension system if they have not been members of units under the old law.

NEW SPEED LAW IN EFFECT AUG. 18

Motorists May Make 35 Miles an Hour on Country Roads on That Date.

LANSING, Aug. 14.—On August 18 you can step on it. The new state law, increasing the speed limit on country roads from 25 to 35 miles an hour becomes effective on that date.

Just what difference the effectiveness of the increased speed limit will make, in all but a few localities, is somewhat of a question. Ever since the law was enacted state officials have been frowning upon the practice of arresting violators of the old law—if they stayed under the limit of the new law. Sheriffs and local authorities were notified of the change and asked to use discretion until the eighteenth. According to reports received here, they have done so except in a few localities. In those few apparently, the local officials insisted upon their belief that the law is the law.

Along with the increased speed limit come several other changes in the statute governing the operation of motor vehicles. Mirrors must be carried on all motor trucks of more than 1-1/2 ton capacity on country roads. All cars, when parked with the city limits of any city, must display both rear and front light. There are several other minor changes in the laws, regulating lights and license plates.

The idea of the act requiring all heavy trucks to equip with a mirror is to do away with any city, must display both rear and front light. There are several other minor changes in the laws, regulating lights and license plates.

The idea of the act requiring all heavy trucks to equip with a mirror is to do away with any city, must display both rear and front light. There are several other minor changes in the laws, regulating lights and license plates.

Huge Summer Pageant Is Staged at Petoskey

PETOSKEY, Mich., Aug. 14.—Many Michigan folks and scores of others from a dozen states participated here Saturday night in the John M. Hall auditorium at Bay View, in "A Purtil Pageant," of more than usual scope. The production, which was the third annual event of its kind in Bay View directed by Miss Esther Bloomfield Merriman of Chicago, was attended by 2,500 summer visitors from Little Traverse bay resorts.

It was the story of "Hope," impersonated by Miss Merriman, dedicating an altar to Liberty. Drawn by the light of "Hope," "Faith," leading the Pilgrim Fathers in their search for Freedom, came to the shrine in the wilderness. Beset by perils of sea and land, the weary Pilgrims, about to lose Hope, are saved by Faith. They find the dreaded Indian a friend in need, and, conquering Fear by Faith, they overcome Cold, Hunger, Pestilence and Drought, and get a glimpse of the brighter days in store.

OFFICIALS INVITED TO CULVER SESSION

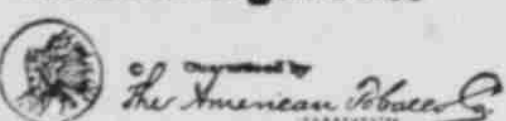

CULVER, Ind., Aug. 14.—Invitations have been sent to Secy of War Weeks, Secy of the Navy Denby, Assistant Secy of the Navy Roosevelt, and Gov. McCray of Indiana, by Col. L. R. Gignilliat, department commander of the American Legion, and by Admiral Albert Ross, head of the Culver summer schools, to attend the exhibition of drills and sports to be staged August 22 by the cadets of Culver summer schools in behalf of the fund for helping the disabled ex-service men of the state of Indiana.

Unexecuted orders for telephone instruments, etc., it is stated, now number 200,000 in England.

Cigarette

No cigarette has the same delicious flavor as Lucky Strike. Because Lucky Strike is the toasted cigarette.

SPEED BUILDING PROGRAM ON ROAD

Public Service Commission Orders Contractors to Complete Work by Nov. 1.

INDIANAPOLIS, Aug. 14.—In order that approximately five miles of improved highway on the national road west of Terre Haute to the state line and seven miles on the Range line road south of Kokomo shall be completed before November 1, the state highway commission Saturday instructed contractors building the road to employ more men and to utilize additional equipment.

This is in accordance with the plan of the commission to complete all sections of the state highway system now under contract this fall. Lawrence Lyons, director of the state highway department, declared. In the event contractors fail to cooperate with the program, Mr. Lyons said, the commission may let new contracts for such work it appears will not be completed according to schedule.

Year's Program.

The highway program for the remainder of this year calls for completion of paving sections of nine main trunk line roads, according to Chesley Grey, acting chief engineer for the commission. Roads on which work is to be finished this year and estimates of the department officials when the work should be completed include:

National road, Indianapolis to Bridgeport, 6.11 miles, to be completed October 21.

Range line road, Plymouth to Marshall county line, 8.4 miles, October 18.

French Lick road, Booneville to Vanderburgh county line, 10.3 miles, November 10.

Lincoln highway, Porter county line, west, 11.4 miles, September 25.

National road, Terre Haute, west to state line, 4.11 miles, November 1.

Range line road, Kokomo, south, 7 miles, November 1.

FIREMEN INJURED IN INDIANAPOLIS CRASH

INDIANAPOLIS, Aug. 14.—Two members of the fire department are in the city hospital here as a result of a collision Saturday night while answering one of the six alarms that followed quickly after an electrical storm, about 10 o'clock.

Battalion Chief John W. Blackwell suffered cuts on his right arm and was stunned, while Ralph Tredway, chauffeur for the chief, was thrown through the windshield of the car and was cut and bruised about the body.

The sheriff received word from Detroit Saturday morning that several men, former employees of the A. J. Smith Construction company, which has several large road construction contracts in St. Clair county had been overheard outlining plans for the proposed holdup.

The paymaster came to Marysville Saturday afternoon on a Rapid car and was accompanied by several deputy sheriffs of the company's temporary office at Rattle Run. Learning of the presence of the officers the holdup was not attempted. An investigation is being made and arrests will probably follow.

Crowbar is Jammed Through Workman's Face

PONTIAC, Mich., Aug. 14.—Guy Meade, 50, foreman for the Fuller-Becker gravel pit on the north border of the village of Oxford, Friday afternoon received injuries from which he may not recover. When machinery at the pit became jammed he attempted to dislodge an obstacle with a heavy crowbar. The machinery started suddenly, swung the bar against his nose, breaking it in another rotation was driven through his face from one side to the other. William Teak, fellow workman, saw the accident and removed the bar.

MAKE THAT CAMP COMFORTABLE WITH THE BEST CAMPING GEAR OBTAINABLE
Auto Tents, Cots, Camp Stools, Folding Tables, Tents and everything necessary to complete the camp.
